A YEAR IN THE LIFE OF FOR A DAY

In April 2018, under Maria Lu's directorship, For A Day's Houston Chapter started to once again provide services for children with cancer and other serious illnesses in Houston. Once Maria and other dedicated volunteers were able to raise enough money, they immediately began to implement at least one event at a hospital every month. This far exceeded the organization's initial objective of just two events a year.

TURNING TREATMENT DAYS TO FUN DAYS

So far, 172 children have participated in our signature "Queen For A Day" and "Superhero For A Day" events. We have been able to transform children's treatment days for fun days! We are deeply grateful to all our donors, volunteers, sponsors and everyone behind the scenes who make this possible!
